## Picque Social Media Platform

### Overview

Picque is a social media platform which crops and your screenshots and uploads with as preview in gallery layout. The user has the choice on which screenshots to post and what order. Picque crops the original image, the source tag from the original platform remains. Picque is your phone gallery altered into social media platform. However, you control what you post, how you share it and who you share it with.

This platform allows you to add text, images, video, GIFS, links, and has a user-friendly interface.
